

FOR IMMEDIATE RELEASE

LOGIC DEVICES ACHIEVES ISO 9001:2000 REGISTRATION

June 26, 2008, Sunnyvale, California — LOGIC Devices (Nasdaq: LOGC), a developer of integrated circuits for high definition video markets, has successfully achieved registration to the internationally-recognized internal quality management standard ISO 9001:2000 (ISO 9001). This assessment was conducted by EAGLE Registrations Inc. EAGLE is a registrar that provides third-party registration and assessment services to various national and international standards, and is recognized as one of the highest-rated registrars worldwide.

ISO 9001:2000 was introduced in December 2000 and is recognized worldwide. It requires organizations to demonstrate that they have a quality management system to ensure consistency and continuous improvement; leading to higher levels of performance and customer satisfaction.

"Our success in achieving this goal is due to the tremendous dedication and teamwork of everyone in the company. We are particularly pleased to have achieved ISO 9001 certification as it underlines our commitment to our customers and our focus on quality. This recognition demonstrates we can provide a quality solution from quotation to delivery," stated Bill Volz, president of LOGIC Devices.

LOGIC Devices is a fabless semiconductor manufacturer focused on developing high performance digital integrated circuits for applications requiring high-density embedded memory, high speed and low power consumption. LOGIC's product solutions meet the requirements of leading broadcast video, medical imaging, surveillance, instrumentation, and telecommunications companies.
